Protein has become an increasingly important part of everyday nutrition, but finding convenient protein-rich snacks with a simpler ingredient profile can be challenging.

RAWR was created to bridge that gap.

We want to make it easier to choose a snack that gives you protein while keeping the ingredient list simple and transparent.

RAWR = Protein + Taste + Convenience + Transparency

5. Our Story

RAWR started with a simple observation:

Protein is becoming a rising need, but clean protein snacking options are still limited.

As college students ourselves, we wanted something that could fit easily into everyday life—between classes, after a workout, during a busy workday, or simply when you want a better snack.

That's where RAWR came in.

We started experimenting with a protein bar made from ingredients we could recognize and understand, without adding preservatives.

RAWR is built around one simple idea:

Keep it real. Keep it clean. Keep it raw.

And that's where our tagline comes from:

As Raw As You.
